## Front Door Glass Comes Out of the Channel

(Supersedes 06-014, dated July 20, 2007, to update the information marked by the black bars)

### SYMPTOM

The glass in the driver's or front passenger's door comes out of the run channel, or it binds and then stalls when you try to close the window.

### PROBABLE CAUSE

The manufacturing tolerances are not within specification for the glass run channel, the door glass, and the window regulator.

### CORRECTIVE ACTION

Replace the glass run channel, the door glass, and the window regulator.
